Resuscitation, 24 (1992) 291–293
Elsevier Scientific Publishers Ireland Ltd.

Subject Index

Volume 24 (1992)

acidosis, cardiopulmonary resuscitation, sodium bicarbonate, 143
advanced cardiac life support, airway management, esophageal obturator airway (EOA), endotrachial intubation, mechanical ventilation, transtracheal ventilation, suctioning, surgical intervention, 205
advanced life support, European Resuscitation Council, guidelines, 111
airway management, advanced cardiac life support, esophageal obturator airway (EOA), endotrachial intubation, mechanical ventilation, transtracheal ventilation, suctioning, surgical intervention, 205
ambulance crew, automatic external defibrillator, cardiac arrest, resuscitation, 73
animal studies, vasopressor drugs, cardiopulmonary resuscitation, myocardial blood flow, optimal dose, human studies, 147
anoxic/ischemic brain injury, regional cerebral blood flow, SPECT, 99mTc-HM-PAO, CT scan, apallic syndrome, 273
anxiety, resuscitation, training, 7
apallic syndrome, anoxic/ischemic brain injury, regional cerebral blood flow, SPECT, 99mTc-HM-PAO, CT scan, 273
atropine, bretylium, defibrillation, lodocaine, proarrhythmia, survival, 227
audit, cardiac arrest, video recording, training, 13
automatic external defibrillator, ambulance crew, cardiac arrest, resuscitation, 73

basic life support, European Resuscitation Council, guidelines, 103
blood flow, cardiopulmonary resuscitation, cardiac pump, thoracic pump, 123
brain, cardiac arrest, intensive care, ischemia, resuscitation, 245
brain, resuscitation, monitoring, 233
bretylium, atropine, defibrillation, lodocaine, proarrhythmia, survival, 227

cardiac arrest, ambulance crew, automatic external defibrillator, resuscitation, 73
cardiac arrest, brain, intensive care, ischemia, resuscitation, 245
cardiac arrest, cardio-pulmonary resuscitation, CPR-training, general practitioner, 49
cardiac arrest, cardiopulmonary resuscitation, precordial thump, 133
cardiac arrest, resuscitation, CPR, human, open chest CPR, outcomes, cardiac massage, 61
cardiac arrest, video recording, training, audit, 13
cardiac massage, cardiac arrest, resuscitation, CPR, human, open chest CPR, outcomes, 61
cardiac pump, cardiopulmonary resuscitation, blood flow, thoracic pump, 123
cardiac arrest, cardiopulmonary resuscitation, defibrillation, ventricular fibrillation, 211
cardio-pulmonary resuscitation (CPR), catecholamines, epinephrine, nor-epinephrine, 263
cardio-pulmonary resuscitation, CPR-training, general practitioner, cardiac arrest, 49
cardiopulmonary resuscitation, acidosis, sodium bicarbonate, 143
cardiopulmonary resuscitation, blood flow, cardiac pump, thoracic pump, 123
cardiopulmonary resuscitation, cardiac arrest, precordial thump, 133
cardiopulmonary resuscitation, cardiac arrest, defibrillation, ventricular fibrillation, 211
cardiopulmonary resuscitation, cerebral resuscitation, cerebral ischemia, cerebral oxygen extraction ratio, postresuscitation syndrome, postischemic-anoxic encephalopathy, 27
cardiopulmonary resuscitation, drug delivery routes, venous routes, endobronhcial routes, intraosseous route, intracardiac routes, delivery systems, 137
cardiopulmonary resuscitation, vasopressor drugs, myocardial blood flow, optimal dose, human studies, animal studies, 147
catecholamines, cardio-pulmonary resuscitation (CPR), epinephrine, nor-epinephrine, 263
central venous oximetry, shock, lactic acid concentration, systemic oxygenation, 55
cerebral ischemia, cardiopulmonary resuscitation, cerebral resuscitation, cerebral oxygen

extraction ratio, postresuscitation syndrome, postischemic-anoxic encephalopathy, 27
cerebral oxygen extraction ratio, cardiopulmonary resuscitation, cerebral resuscitation, cerebral ischemia, postresuscitation syndrome, postischemic-anoxic encephalopathy, 27
cerebral resuscitation, cardiopulmonary resuscitation, cerebral ischemia, cerebral oxygen extraction ratio, postresuscitation syndrome, postischemic-anoxic encephalopathy, 27
CPR efforts, out-of-hospital cardiac arrest, in-hospital cardiac arrest, CPR outcome, registration forms, 155
CPR outcome, out-of-hospital cardiac arrest, in-hospital cardiac arrest, CPR efforts, registration forms, 155
CPR, cardiac arrest, resuscitation, human, open chest CPR, outcomes, cardiac massage, 61
CPR-training, cardio-pulmonary resuscitation, general practitioner, cardiac arrest, 49
CT scan, anoxic/ischemic brain injury, regional cerebral blood flow, SPECT, 99mTc-HM-PAO, apallic syndrome, 273

defibrillation, atropine, bretylium, lodocaine, proarrhythmia, survival, 227
defibrillation, cardiac arrest, cardiopulmonary resuscitation, ventricular fibrillation, 211
delivery systems, cardiopulmonary resuscitation, drug delivery routes, venous routes, endobronhcial routes, intraosseous route, intracardiac routes, 137
drug delivery routes, cardiopulmonary resuscitation, venous routes, endobronhcial routes, intraosseous route, intracardiac routes, delivery systems, 137

endobronhcial routes, cardiopulmonary resuscitation, drug delivery routes, venous routes, intraosseous route, intracardiac routes, delivery systems, 137
endotrachial intubation, advanced cardiac life support, airway management, esophageal obturator airway (EOA), mechanical ventilation, transtracheal ventilation, suctioning, surgical intervention, 205
epinephrine, cardio-pulmonary resuscitation (CPR), catecholamines, nor-epinephrine, 263
esophageal obturator airway (EOA), advanced cardiac life support, airway management, endotrachial intubation, mechanical ventilation, transtracheal ventilation, suctioning, surgical intervention, 205
ethics, resuscitation, patient autonomy, No CPR order, practicalities, 239
European Resuscitation Council, advanced life support, guidelines, 111
European Resuscitation Council, basic life support, guidelines, 103
expired air resuscitation, retention, school students, 17

general practitioner, cardio-pulmonary resuscitation, CPR-training, cardiac arrest, 49
guidelines, advanced life support, European Resuscitation Council, 111
guidelines, basic life support, European Resuscitation Council, 103
human studies, vasopressor drugs, cardiopulmonary resuscitation, myocardial blood flow, optimal dose, animal studies, 147
human, cardiac arrest, resuscitation, CPR, open chest CPR, outcomes, cardiac massage, 61

in-hospital cardiac arrest, out-of-hospital cardiac arrest, CPR efforts, CPR outcome, registration forms, 155
intensive care, brain, cardiac arrest, ischemia, resuscitation, 245
intracardiac routes, cardiopulmonary resuscitation, drug delivery routes, venous routes, endobronhcial routes, intraosseous route, delivery systems, 137
intraosseous route, cardiopulmonary resuscitation, drug delivery routes, venous routes, endobronhcial routes, intracardiac routes, delivery systems, 137
ischemia, brain, cardiac arrest, intensive care, resuscitation, 245

lactic acid concentration, shock, central venous oximetry, systemic oxygenation, 55
lodocaine, atropine, bretylium, defibrillation, proarrhythmia, survival, 227

mechanical ventilation, advanced cardiac life support, airway management, esophageal obturator airway (EOA), endotrachial intubation, transtracheal ventilation, suctioning, surgical intervention, 205
monitoring, resuscitation, brain, 233
myocardial blood flow, vasopressor drugs, cardiopulmonary resuscitation, optimal dose, human studies, animal studies, 147

No CPR order, ethics, resuscitation, patient autonomy, practicalities, 239
nor-epinephrine, cardio-pulmonary resuscitation (CPR), catecholamines, epinephrine, 263

open chest CPR, cardiac arrest, resuscitation, CPR, human, outcomes, cardiac massage, 61
optimal dose, vasopressor drugs, cardiopulmonary resuscitation, myocardial blood flow, human studies, animal studies, 147
out-of-hospital cardiac arrest, in-hospital cardiac arrest, CPR efforts, CPR outcome, registration forms, 155
outcomes, cardiac arrest, resuscitation, CPR, human, open chest CPR, cardiac massage, 61
patient autonomy, ethics, resuscitation, No CPR order, practicalities, 239

postischemic-anoxic encephalopathy, cardiopulmonary resuscitation, cerebral resuscitation, cerebral ischemia, cerebral oxygen extraction ratio, postresuscitation syndrome, 27
postresuscitation syndrome, cardiopulmonary resuscitation, cerebral resuscitation, cerebral ischemia, cerebral oxygen extraction ratio, postischemic-anoxic encephalopathy, 27
practicalities, ethics, resuscitation, patient autonomy, No CPR order, 239
precordial thump, cardiac arrest, cardiopulmonary resuscitation, 133
proarrhythmia, atropine, bretylium, defibrillation, lodocaine, survival, 227

regional cerebral blood flow, anoxic/ischemic brain injury, SPECT, 99mTc-HM-PAO, CT scan, apallic syndrome, 273
registration forms, out-of-hospital cardiac arrest, in-hospital cardiac arrest, CPR efforts, CPR outcome, 155
resuscitation, ambulance crew, automatic external defibrillator, cardiac arrest, 73
resuscitation, brain, cardiac arrest, intensive care, ischemia, 245
resuscitation, brain, monitoring, 233
resuscitation, cardiac arrest, CPR, human, open chest CPR, outcomes, cardiac massage, 61
resuscitation, ethics, patient autonomy, No CPR order, practicalities, 239
resuscitation, training, anxiety, 7
retention, expired air resuscitation, school students, 17
school students, expired air resuscitation, retention, 17
shock, central venous oximetry, lactic acid concentration, systemic oxygenation, 55
sodium bicarbonate, acidosis, cardiopulmonary resuscitation, 143
SPECT, anoxic/ischemic brain injury, regional cerebral blood flow, 99mTc-HM-PAO, CT scan, apallic syndrome, 273
suctioning, advanced cardiac life support, airway management, esophageal obturator airway (EOA), endotrachial intubation, mechanical ventilation, transtracheal ventilation, surgical intervention, 205
surgical intervention, advanced cardiac life support,, airway management, esophageal obturator airway (EOA), endotrachial intubation, mechanical ventilation, transtracheal ventilation, suctioning, 205
survival, atropine, bretylium, defibrillation, lodocaine, proarrhythmia, 227
systemic oxygenation, shock, central venous oximetry, lactic acid concentration, 55

99mTc-HM-PAO, anoxic/ischemic brain injury, regional cerebral blood flow, SPECT, CT scan, apallic syndrome, 273
thoracic pump, cardiopulmonary resuscitation, blood flow, cardiac pump, 123
training, cardiac arrest, video recording, audit, 13
training, resuscitation, anxiety, 7
transtracheal ventilation, advanced cardiac life support, airway management, esophageal obturator airway (EOA), endotrachial intubation, mechanical ventilation, suctioning, surgical intervention, 205

vasopressor drugs, cardiopulmonary resuscitation, myocardial blood flow, optimal dose, human studies, animal studies, 147
venous routes, cardiopulmonary resuscitation, drug delivery routes, endobronhcial routes, intraosseous route, intracardiac routes, delivery systems, 137
ventricular fibrillation, cardiac arrest, cardiopulmonary resuscitation, defibrillation, 211
video recording, cardiac arrest, training, audit, 13

Resuscitation, 24 (1992) 295
